## CONTENUTI

### **Module 1: Create a model-driven application in Power Apps**

This module introduces you to creating a model-driven app in Power Apps that uses Common Data Service.

### **Module 2: Create a canvas app in Power Apps**

This module introduces you to Power Apps, helps you create and customize an app, and then manage and distribute it.

### **Module 3: Use the UI and controls in a canvas app in Power Apps**

This module will focus on how to provide the best app navigation, and build the best UI using themes, icons, images, personalization, different form factors, and controls.

### **Module 4: Automate a business process using Power Automate**

This module introduces you to Power Automate, teaches you how to build workflows, and how to administer flows.

### **Module 5: Create and use analytics reports with Power BI**

Learn what Power BI is, including its building blocks and how they work together.

**Module 6: Get started with AI Builder**

This module helps you build an AI model from the beginning and shows how you can use it in your business without writing a single line of code.
