

# CISC-26 - ENWLSI - IMPLEMENTING CISCO ENTERPRISE WIRELESS NETWORKS

Categoria: **Cisco**

## INFORMAZIONI SUL CORSO

**Durata:**  
**5 Giorni**

**Categoria:**  
**Cisco**

**Qualifica Istruttore:**  
**Cisco Certified  
Instructor**

**Dedicato a:**  
**Professionista IT**

**Produttore:**  
**Cisco**

## OBIETTIVI

After completing this course you should be able to:

- Implement network settings to provide a secure wireless network infrastructure
- Troubleshoot security issues as it relates to the wireless network infrastructure
- Implement a secure wireless client and troubleshoot wireless client connectivity issues
- Implement and troubleshoot QoS in wireless networks
- Implement and troubleshoot advanced capabilities in wireless network services

## PREREQUISITI

Attendees should meet the following prerequisites:

- General knowledge of networks
- General knowledge of wireless networks
- Routing and switching knowledge

Recommended prerequisites:

- CCNA - Implementing and Administering Cisco Solutions
- WLFNDU - Understanding Cisco Wireless Foundations
- ENCOR - Implementing and Operating Cisco Enterprise Network Core Technologies

## CONTENUTI

### **Securing and Troubleshooting the Wireless Network Infrastructure**

- Implement Secure Access to the WLCs and Access Points
- Configure the Network for Access Point 802.1X Authentication
- Use Cisco DNA Center for Controller and AP Auto Install
- Implement Cisco Prime Infrastructure
- Define Network Troubleshooting Techniques
- Troubleshoot Access Point Join Issues
- Monitor the Wireless Network

### **Implementing and Troubleshooting Secure Client Connectivity**

- Configure the Cisco WLC for Wireless Client 802.1x Authentication
- Configure the Wireless Client for 802.1X Authentication
- Configure a Wireless LAN for FlexConnect
- Implement Guest Services in the Wireless Network
- Configure the Cisco WLC for Centralized Web Authentication
- Configure Central Web Authentication on Cisco ISE
- Implement BYOD
- Implement Location-Aware Guest Services
- Troubleshoot Client Connectivity
- Describe Issues that Affect Client Performance
- Monitor Wireless Clients

### **Implementing and Troubleshooting QoS in Wireless Networks**

- Implement QoS in the Wireless Network
- Configure the Cisco WLC to Support Voice Traffic
- Optimize Wireless Utilization on the Cisco WLC
- Implement Cisco AVC in the Wireless Network
- Implement Multicast Services
- Implement mDNS Service
- Implement Cisco Media Stream
- Troubleshoot QoS Issues in the Wireless Network
- Troubleshoot mDNS Issues
- Troubleshoot Media Stream Issues

### **Implementing and Troubleshooting Advanced Wireless Network Services**

- Implement Base Location Services on Cisco Prime Infrastructure
- Implement Hyperlocation in the Wireless Network
- Implement Detect and Locate Services on Cisco CMX
- Implement Analytics on Cisco CMX
- Implement Presence Services on Cisco CMX
- Monitor and Locate Rogue Devices with Cisco Prime Infrastructure and Cisco CMX
- Monitor and Detect Wireless Clients with Cisco CMX and Cisco DNA Center
- Run Analytics on Wireless Clients
- Troubleshoot Location Accuracy with Cisco Hyperlocation
- Monitor and Manage RF Interferers on the Cisco WLC
- Monitor and Manager RF Interferers on Cisco Prime Infrastructure and Cisco CMX

### **Labs**

- Lab Familiarization (Base Learning Lab)
- Configure Secure Management Access for WLCs and APs
- Add Network Devices and External Resources to Cisco Prime Infrastructure
- Capture a Successful AP Authentication
- Implement AAA Services for Central Mode WLANs
- Implement AAA Services for FlexConnect Mode WLANs
- Configure Guest Services in the Wireless Network
- Configure BYOD in the Wireless Network
- Capture a Successful Client Authentications
- Configure QoS in the Wireless Network for Voice and Video Services

- Configure Cisco AVC in the Wireless Network
- Capture Successful QoS Traffic Marking in the Wireless Network
- Configure Detect and Locate Services on the Cisco CMX
- Identify Wireless Clients and Security Threats

## INFO

**Esame:** 300-430 - Implementing Cisco Enterprise Wireless Networks

**Materiale didattico:** Materiale didattico ufficiale Cisco in formato digitale

**Costo materiale didattico:** incluso nel prezzo del corso a Calendario

**Natura del corso:** Operativo (previsti lab su PC)
