Microsoft

OBIETTIVI

This training course is designed to help you understand the extensibility options available for Microsoft 365 copilot. You will learn about the different ways to extend Copilot, including building plugins and connectors, and how to choose the right option for your use case. The course also covers best practices for building high-quality plugins and connectors, as well as data, privacy, and security considerations. Whether you are a pro-code or low/no-code developer, this course will help you chart your path to extending and customizing Microsoft 365 Copilot.

PREREQUISITI

CONTENUTI

Build plugins and connectors for Microsoft 365 Copilot

- Microsoft 365 Copilot extensibility fundamentals
- Choose a Microsoft 365 Copilot extensibility development path
